**Endeavor Natural Gas, LP announces the acquisition of Hugh Fitzsimmons Field from Blackbrush Oil and Gas and its latest San Miguel completions on its Serena Ranch Lease**

Endeavor, along with partner Etna Energy, has completed the acquisition of all the interest of Blackbrush Oil and Gas and other related parties in the Hugh Fitzsimmons field in Dimmit County, Texas. The acquisition adds approximately 48,800 net acres of leasehold, 1800 BOEPD of operated production from 41 horizontal wells, and 8 DUCs. The acquisition increases Endeavor's overall position in the San Miguel play in the Maverick Basin to over 100,000 acres.

In addition, Endeavor announces results of recent San Miguel Horizontals in Maverick County, Texas. The 5601H and 5602H were drilled from a two well pad, and are the 5<sup>th</sup> and 6<sup>th</sup> wells drilled on the 17,000 acre Serena Ranch lease in Maverick County. The two wells have a combined 9,062' of lateral landed at a TVD of 3,350'. The 24 hour test rate was 676 BOE (76% oil) and the 30 day average rate was 505 BOEPD. Approximately 10 miles to the north on Endeavor's 22,000 acre Cage lease, Endeavor brought in the Winship 2801 at a rate of 255 BOEPD (84% oil) on a 24 hour test with a 30 day sustained rate of 222 BOEPD. At a TVD of 2150', the Winship 2801 is the shallowest horizontal San Miguel completion to date.
